Please answer these questions to help us identify your eating habits:

Consider what and how you have been eating during the past month. If you've had a recent health event, please answer by describing your usual eating habits before that event.

Your answers to these questions will help us understand your usual food choices.

- The questions are about commonly eaten foods:
 - how many servings of a food you eat -- either in a 'usual' DAY or an 'average' WEEK
 - how foods are prepared
 - how certain situations affect your choices
- A specific serving size for a portion of each type of food is listed.
Picture your usual serving size: is it larger or smaller than the portion listed?
- Note the abbreviations used: Svgs = serving or Wk = week
- Circle the answer that best describes your USUAL eating habits.
- Leave any "Score:_____" blank. The score will be calculated later.

Thank you for helping us Picture Your Plate!
